

Compatibility of BEDCAR with your vehicle

The BEDCAR is compatible with all vehicles type minimum 5 doors, that have more or less folding seats and whose properties are the following :

MINIMUM trunk area :

If it is less than 50 cm , you can put the bed vertically but it will be more cumbersome

MINIMUM width of the cockpit :

At the narrowest point

MINIMUM length :

The tip of the trunk to the first impassable barrier (bottom steering wheel or front seat)

MINIMUM greater height :

Between the highest seat folded down and the ceiling in order to circulate

MAXIMUM height less :

Between the highest seatback and the floor

Seatbelt :

They need to pass a strap behind, otherwise, there is an accessory hook

The rear feet are 20cm minimum to 36cm maximum.
The front feet are 36cm minimum to 64cm maximum.
If you reverse the feet , you get a variant that is 46cm everywhere.
